What You Buy With
WAR BONDS

Uncle Sam's lighter 37-millimeter anti-tank guns are dubbed "tank killers." They are attached to the infantry, not the field artillery, and cost approximately \$6,500 each. They have proved particularly effective in anti-tank warfare.

They are mobile, mounted on automobile tires and can be rapidly whisked from place to place. Your purchase of War Bonds will help pay the cost of these field pieces so necessary for our Army in this War. Join the Payroll Savings Plan at your office or factory and let's "Top that ten percent" by investing at least ten percent of your income in War Bonds. U. S. Treasury Department

Students Find Rationing
Passage in the Good Book

HARRISBURG, PA.—Bible students hereabout insist the Good Book envisioned tire rationing and carries a prophecy of the current conservation of garment materials.

Authority cited for the inevitability of tire conservation is the 11th verse, third chapter of Isaiah, reading:

"In that day the Lord will take away the bravery of their tinkling ornaments about their feet and their curls and their round tires, like the moon."

Another verse in the same chapter says: "That clankable suite of apparel shall be taken away from the people."

All churches in the county are asked to make their Red Cross reports to the U. S. Treasury on or before the 15th of this month.

Watches Once Small Clocks. Watches originally were small clocks and were worn hung from the wrist because they were too large for the pocket.

Woman Butler Who Sings. The woman of "hot butters her hair, plants it into a number of her net tails, gathers them together at the end and plait it with box wood till the thick queue trails so tall to the ground."
